Health Insurance Coverage Options

- "Original" Medicare
- "Medicare Advantage" (MA) plan
 - with Prescription Drug Plan (MA-PD) or without
- Medicaid
- TRICARE/TRICARE for Life
- Public Programs (other than Medicaid)
- Medicare Part D Prescription Drug Plan (PDP)
- Private/Supplemental Insurance Plan
 - Purchased directly from an insurance company, or
 - Obtained through an employer, union, or other group, such as AARP

HI1

ORIGINAL MEDICARE	MEDICARE ADVANTAGE
 You have your choice of doctors and hospitals. Generally, you or your supplemental coverage pay deductibles and coinsurance. If you want drug coverage, you must join a <i>stand-alone Medicare prescription drug plan</i> –a separate policy just for drugs. You can buy a <i>Medigap plan</i>, which can help pay expenses not covered by Medicare. 	 May either require you to see medical providers in their <i>network</i> or let you choose and pay more of the costs. You usually pay a <i>copay</i> or coinsurance for covered services. If you want drug coverage, you must join a plan that includes drug coverage. This will give you all of your coverage in one plan. A Medigap plan is not available.
MEDICAID	TRICARE/TRICARE FOR LIFE
 Public health care plan that helps make Medicare affordable for beneficiaries with low incomes and modest assets. Medicare beneficiaries who are also enrolled in Medicaid are referred to as "dual eligibles." Will be automatically enrolled in a Medicare prescription drug plan and be eligible for a low-income subsidy or "extra help." 	 Covers active-duty service members, retirees, and their families. TRICARE generally pays the fees left outstanding after Medicare has made their payment.

PRIVATE HEALTH INSURANCE

- Includes supplemental or Medigap plans, plans that are provided by a former or current employer, and other plans purchased directly through a private company, union, association, or other group.
- Cover the cost of hospital or doctor visits, prescribed medicines, or dental care.
- Common type: Medicare Supplement Insurance (Medigap), which is available to recipients of Original Medicare and helps pay some of the health care costs that Original Medicare doesn't cover, like copayments, coinsurance and deductibles.

MEDICARE PART D PRESCRIPTION DRUG PLAN

- Separate policies that cover only prescribed medicines.
- Beneficiaries pay a monthly premium and copay or coinsurance for their required prescriptions.
- Standalone plans are only available to beneficiaries who are covered by Original Medicare; otherwise drug coverage is available as part of Medicare Advantage plans.

PUBLIC PROGRAMS (OTHER THAN MEDICAID)

- Include state, county, or city-based programs such as a pharmacy program, where the local government provides at least partial coverage for the cost of prescribed medicines.
- Insurance comes from a *public source* other than Medicare or Medicaid.
